

```
wonderous_square.main();
```

```
Enter the number of rows and columns
```

```
5
```

```
Enter elements of the matrix:
```

```
Enter Row 1 :
```

```
17
```

```
24
```

```
1
```

```
8
```

```
15
```

```
Enter Row 2 :
```

```
23
```

```
5
```

```
7
```

```
14
```

```
16
```

```
Enter Row 3 :
```

```
4
```

```
6
```

```
13
```

```
20
```

```
22
```

```
Enter Row 4 :
```

```
10
```

```
12
```

```
19
```

```
21
```

```
3
```

```
Enter Row 5 :
```

```
11
```

```
18
```

```
25
```

```
2
```

```
9
```

```
The Matrix is:
```

17	24	1	8	15
23	5	7	14	16
4	6	13	20	22
10	12	19	21	3
11	18	25	2	9

```
Yes, it represents a wondrous square
```

```
Prime      Row Index      Column Index
```

17	0	0
23	1	0
5	1	1
7	1	2
13	2	2
19	3	2
3	3	4
11	4	0
2	4	3
